**Mattie's** If you are looking for good food and do not want to spend a lot of money, then head south from Solomon's Island Bridge on Highway 235 about 5 ½ miles to Mattie's. On the right or west side of the road you will be delighted to find an aged looking building - but looks can be deceiving. When entering the building go in the left or northern door for the restaurant section. I was very pleased with my entrée choice of the loaded steak, which was exceptionally good. It was served with a giant piece of Texas Toast and a selection of vegetables. They also have delicious soups and specialty desserts that are terrific. Just remember that you're not going to pay a lot for a scrumptious steak at Mattie's.

**Sleep Inn & Suites** Located only 5 miles from Solomons, a popular area tourist attraction, this newly constructed hotel offers amenities for business travelers as well as vacationing families. Their friendly and helpful staff, from front desk to house keeping, succeed in making your stay a comfortable one. Relax in the indoor pool or Jacuzzi. The suites include a refrigerator, microwave, and coffee pot and are also available with whirlpool soaking tubs for those who really know how to relax. This beautifully furnished hotel and their unbeatable staff "is choice one for vacationing fun."
